INTERIM RESULTS

The board (the "Board") of directors ("Directors") of Tanrich Financial Holdings Limited (the "Company") announces the unaudited interim results of the Company and its subsidiaries ("Tanrich" or the "Group") for the six months ended 31 December 2009 together with the comparative figures for the preceding interim period ended 31 December 2008 as set out on pages 9 to 27 to this report.

INTERIM DIVIDEND

The Board has resolved not to declare an interim dividend for the year ending 30 June 2010 (2009: Nii).

MANAGEMENT DISCUSSION AND ANALYSIS

Business review

The Group recorded a turnover of HK\$35.3 million (2008: HK\$39.1 million) and a loss before taxation of HK\$6.3 million (2008: HK\$23.3 million). Despite the performance of certain segments, the interim results showed a significant improvement. The fair value of long term investments classified under available-for-sale financial assets further appreciated during the period. The net assets of the Group increased to HK\$261.1 million.

Securities broking and margin financing

The average daily turnover of Hong Kong securities market for this period increased by 15% over the same period last year to HK\$65.7 billion. Outperforming the market, the commission income from securities brokerage increased to HK\$13.3 million, which is almost 90% of the annual figure of 2009 and is close to 180% of that of the last interim period. In addition, the interest income from margin financing also represents more than 60% of the 2009 annual interest income. Such an encouraging result was contributed by hard work of all different functions of the Group, in particular the research team which produced quality research reports and our spokespersons who built confidence among our clients through their analysis and speeches.

During the period, the Institutional Sales division was established. The whole platform system, including order placing, risk control, custodian and settlement, were ready in less than 6-month period. We also established broker relationship with international securities houses. The management is confident that the Institutional Sales division would be fruitful in the near future.

Wealth management and insurance agency

The professional asset management team started contributing to this segment in the current review period. Riding on the expertise in futures, the Group managed a private fund of a portfolio of commodity futures and option positions which is building a positive track record. The Group was also invited to be the manager of certain offshore funds.

Tanrich aims at providing clients with most diversified products that the Group further established agency relationship with a few more insurance companies and fund houses during the period.

Performance of sale of insurance-linked and structured products improved and the agency fee income increased by more than 26% as compared to the lowest level in the first half year 2009. Nevertheless, the income is only 28% of that of same period last year. The segment loss increased to HK\$2.8 million. The management expects further improvement in the next half year.

Futures broking

It has been a tough time for futures business in last few years. The tightening regulations and clients' adverse attitude towards margined products after the financial crisis in 2008 resulted in unfavourable market environment. The rebound of securities market in late 2009 also discouraged the investment in futures and funds products. The segment turnover and loss was HK\$3.2 million and HK\$5.1 million respectively.

Corporate finance

Initial public offering ("IPO") activities and other equity fund raising activities almost froze after the market slump in October 2008. Following the re-active securities market, there was a strong demand for IPO that 55 companies successfully listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange") in this half year.

The Group acted as agent of 3 placing exercises and was engaged as sponsor for new listing of 3 companies. The Group was also appointed as financial advisers for a few corporate transactions. The segment generated an income of HK\$4.9 million and a slight profit of HK\$0.3 million.

Money lending

The money lending business has little development during the period under review. The turnover dropped to HK\$0.2 million. The segment loss was HK\$0.1 million.

Proprietary trading

The turnover of proprietary trading for the period was HK\$5.5 million, which is 16% less than that of last interim period. The US\$4 million portfolio managed under our professional asset management team recorded double-digit return while other trading in listed securities also contributed approximately 40% to the total segment results. The decrease in profit from futures trading is mainly due to unpredictable market fluctuations resulted from the debt issues of Dubai World in December 2009.

Prospects

2009 was a year of challenges and opportunities. The Gross Domestic Product of Hong Kong ("GDP") rebounded consecutively over the past 3 quarters from year-on-year decline of 7.8 % in real terms in the first quarter of 2009 to a positive of 2.6% in the fourth quarter. Despite the unemployment rate at 4.9% in the last quarter of 2009, the expectation in employment and number of vacancy from private sector have shown upward trend. The 2009 GDP registered -2.7% against its first revision in May 2009 ranging from -5.5% to -6.5%.

With these encouraging figures, Hong Kong still faces a lot of uncertainties, including "toxic assets" in the US and European financial systems, rise of protectionist sentiment, and impact on asset markets when exit strategies are implemented. We expect the market activities will not be as frequent as the past 6 months. To diversify from reliance on existing brokerage businesses, the Group is extending its business to options brokerage, advisory services in MPF and residentship through capital investment. Our research team is also compiling professional company reports for selected clients and conducting seminars jointly with partners in mainland China.

Stepping into the 20th anniversary, the Group leaped over a number of challenges, namely oil crisis and Asia financial turmoil in the last century, and SARS and financial tsunami in this decade. None of these incidents shook our faith and courage. Tanrich developed from a small-scale futures broking firm to an all-rounded listed financial group over the 20 years. With foundation in Hong Kong and targeting to Mainland, Tanrich is committed to continuing this legend to become an outstanding local investment bank.

Financial review

Liquidity, financial resources and gearing ratio

As at 31 December 2009, the Group had total cash and bank balances of HK\$55.9 million (*30 June 2009: HK*\$36.1 million), while net current assets amounted to HK\$116.4 million (*30 June 2009: HK*\$131.5 million). The decrease in net current asset is mainly due to investment in a nonlisted fund and utilisation over normal operation. The current ratio as a ratio of current assets to current liabilities also dropped to 2.5 (*30 June 2009: 3.2*).

The Group met its daily operating obligations from its internal resources. The finance costs were mainly for margin financing business. To cope with the increasing demand in margin financing, the Group had short term bank borrowings of HK\$24 million at the end of reporting period and resulting in gearing ratio of 9.2% (*30 June 2009: 12.0%*). Gearing ratio represents the ratio of total borrowings to the total equity of the Group. The bank borrowings are subject to floating interest rates with reference to the costs of funds of the banks.

Banking facilities and charges on assets

As at 31 December 2009, the Group had aggregate banking facilities of HK\$910.6 million. The drawdown of certain banking facilities of HK\$907.4 million is subject to the market value of the marketable securities pledged and the margin deposits placed. The Group pledged certain investments in listed securities and other financial assets totalling HK\$117.4 million and fixed deposits of HK\$0.7 million for the facilities.

Material investments

The Group maintained its investments in 2 listed and 3 non-listed companies as disclosed in the Annual Report 2009. During the period, the Group subscribed units of the fund managed by our asset management team of the amount of US\$1 million. The Group did not make provisions for such investments for the period.

The associate of the Group, FundStreet AG ("FundSteet") is actively preparing to cope with the expected rebound in investment demand of private equity funds and other funds for qualified investors. FundStreet has applied with the Swiss FINMA for a Swiss property fund in legal form of a SICAV, the first fund of its kind under the Swiss Act on Collective Investments. The related fund raising activity is expected to be started in the second half of this year. For the existing OTC fund, they raised new investment money over the past 6 months. Following a long period of sluggish demand from investors in Switzerland and other markets in Europe for private equity and other closed-end funds, it is also expected that the percentage of net management fee income will return to previous higher level.

Contingencies

The Group had no material contingent liabilities as at 31 December 2009.

Commitments

As at 31 December 2009, the Group had no material capital commitment.

Exposure to fluctuations in exchange rates and related hedges

The Group faced similar foreign exchange risk as disclosed in the Annual Report 2009. The Group had a total margin deposit placed with three designated futures commission merchants of JPY36.1 million and a bank deposit of JPY16.3 million, being equivalent to approximately HK\$4.4 million in total. This amount has been properly hedged with USD/JPY foreign exchange deferred trading.

Changes since 30 June 2009

Save as discussed in this interim report, there were no other significant changes in the Group's financial position and from the information disclosed in the Annual Report 2009.

Employees

As at 31 December 2009, the Group had a total of 118 employees. The Group operates different remuneration schemes for account executives and other supporting staff respectively. Account executives are remunerated on the basis of on-target-earning packages comprising base pay and allowances, commission and/or bonus. All supporting and general staff is also entitled to the year-end and the performance discretionary bonuses. The Company has share option schemes under which the Company may grant options to eligible persons to subscribe for shares in the Company as a long-term incentive scheme.

The Group provides training programs for the staff to enhance their skills and knowledge on products, regulations and compliance. Most of the in-house training are qualified for claiming Continuous Professional Training hours for the licensed persons.

1. Basis of preparation and accounting policies

The unaudited interim condensed consolidated financial statements for the six months ended 31 December 2009 have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 *"Interim Financial Reporting"* issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and with the applicable disclosure requirements of Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

These interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements for the year ended 30 June 2009.

The accounting policies applied in preparing these interim condensed consolidated financial statements are consistent with those applied in preparing the Group's financial statements for the year ended 30 June 2009, except for the adoption of the new/revised Hong Kong Financial Reporting Standards ("HKFRS") and HKASs as below.

HKAS 1 (Revised): Presentation of Financial Statements

This standard introduces changes in the presentation and disclosures of financial statements (including changes to the titles of the main statements). The revised standard separates owner and non-owner changes in equity. The statement of changes in equity will include only details of transactions with owners, with all non-owner changes in equity presented as a single line.

In addition, this revised standard introduces the statement of comprehensive income: it presents all items of income and expenses recognised in profit and loss, together with all other items of recognised income and expenses, either in one single statement, or in two linked statements. The Group has elected to present the comprehensive income in one single statement. The interim condensed consolidated financial statements have been prepared under the revised disclosure requirements and the adoption had no impact on the results or financial position of the Group.

1. Basis of preparation and accounting policies (continued)

Amendments to HKAS 27: Cost of An Investment in a Subsidiary, Jointly Controlled Entity or Associate

Amendments to HKAS 27 remove the distinction between dividends distributed from preand post-acquisition profits from the definition of the cost method and replace it with a requirement to recognise all dividends received in profit or loss once the entity's right to receive the dividend is established. In accordance with the transitional provision in such amendments, the new policy is applied only prospectively from the current period and thus no restatement is made to prior periods. As no dividend income was received by the Company from its subsidiaries during the period, this standard has no impact on the interim financial statements for the current period.

HKFRS 3 (Revised): Business Combinations

The revised standard continues to apply the acquisition method to business combinations, with some significant changes. For example, all payments to purchase a business are to be recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently re-measured through the income statement. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs should be expensed. The Group will apply HKFRS 3 (revised) prospectively to all business combinations from 1 July 2009. As there has been no change in the Group structure during the period, this standard has no impact on the interim financial statements for the current period.

HKFRS 8: Operating Segments

This standard replaces HKAS 14 "Segment Reporting". It requires "management approach" under which segment information is presented on the same basis as that used for internal reporting purposes. Adoption of this standard did not have any effect on the Group's results of operation or financial position. The Group has determined that its operating segments are substantially the same as the business segments previously identified under HKAS 14.

Future changes in HKFRS

The Group has not early adopted any new and revised HKFRSs that have been issued but are not yet effective for the current accounting period. The Group has already commenced an assessment of the impact of these new and revised HKFRSs but is not yet in a position to reasonably estimate their impact on its results of operations and financial position.

2. Segment information

The Directors have been identified as the chief operating decision makers to evaluate the performance of operating segments and to allocate resources to those segments based on the Group's internal reporting in respect of these segments.

The Group has adopted HKFRS 8 with effect from 1 July 2009. However the adoption of this HKFRS has not resulted in a redesignation of the Group's reportable segments as compared with the primary reportable segments determined in accordance with HKAS 14.

The Directors consider securities broking and margin financing, wealth management and insurance agency, futures broking, corporate finance, money lending and proprietary trading are the Group's major operating segments. Segment results represent the profit earned or loss incurred by each segment without allocation of finance costs not directly attributable to segment principal activities and taxation. The following analysis is the measure reported to chief operating decision makers for the purposes of resources allocation and assessment of segment performance.

4. Taxation

The amount represents provision for Hong Kong Profits Tax for the current period, at the rate of 16.5% on the Group's estimated assessable profits arising from Hong Kong during the period.

No provision for Hong Kong Profits Tax was provided in the previous period as certain group companies' assessable profits for that period were wholly absorbed by unrelieved tax losses brought forward from previous years and the other group companies had no assessable profit for that period.

5. Loss per share

The calculations of basic and diluted loss per share are based on the loss attributable to equity holders for the period of HK\$6,761,000 (2008: HK\$23,288,000).

The basic loss per share is based on the weighted average number of ordinary shares of 1,125,994,000 (2008 restated: 1,125,264,000) in issue during the period.

As there was an anti-dilutive effect after adjusting for the effects of all dilutive potential ordinary shares in current and previous periods, the diluted loss per share for these periods equal to the basic loss per share.

The weighted average number of ordinary shares adopted in the calculations of the basic and diluted loss per share for 2008 has been adjusted to reflect the impact of the bonus issue effected during the current period.

The investment in an associate represents 40.17% (*30 June 2009: 40.17%*) of the issued ordinary share capital of FundStreet AG ("FundStreet"), a company engaged in fund management in Switzerland which is incorporated in Zurich, Switzerland. The associate has its financial year ended on 31 December. For the purpose of group consolidation, its management accounts for the period ended 31 December 2009 have been equity accounted for in these financial statements.

7. Interests in jointly controlled entities (continued)

Pursuant to the memorandum of understanding entered into by the Group and FundStreet, the board of directors of TFSL is to be composed of five members, of which two directors are appointed by the Group. Any change to the board composition is to be mutually agreed by all shareholders of TFSL. As a result, TFSL is not considered as a subsidiary of the Group as the Group has no control over its financial and operating policy decision.

Directors' rights to acquire shares or debentures

Apart from as disclosed in the "Share option schemes" above, at no time during the period were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate granted to any Director or their respective spouses or children under the age of 18, or were any such rights exercised by them; or was the Company or any of its subsidiaries a party to any arrangement to enable the Directors, their respective spouses or children under the age of 18 to acquire such rights in any other body corporate.

Substantial shareholders' interests and short positions in shares and underlying shares

As at 31 December 2009, the persons (other than Directors and chief executives of the Company whose interests or short positions have been disclosed above) who had interests or short positions in the shares and underlying shares of the Company as recorded in the register required to be kept by the Company pursuant to Section 336 of the SFO are as follows:

Name of shareholders	Note	Number of ordinary shares held	Percentage of holding
Aceland Holdings Ltd.	1, 2 & 4	480,000,000	42.57%
Redwood Pacific Limited	2 & 4	480,000,000	42.57%
Bank of East Asia (Trustees) Limited	3 & 4	480,000,000	42.57%
Tang Yuk Lan	5	545,484,000	48.37%

Notes:

- 1. Aceland Holdings Ltd. is the trustee of The Yip Unit Trust, which holds 42.57% of the shareholdings of the Company.
- 2. Redwood Pacific Limited is the trustee of The Yip Man Fan Unit Trust, which holds 100% of those units in The Yip Unit Trust.
- 3. Bank of East Asia (Trustees) Limited is the trustee of The Yip Man Fan Family Trust, which holds 99.99% of the units in The Yip Man Fan Unit Trust.
- 4. Under Part XV of the SFO, each of Redwood Pacific Limited and Bank of East Asia (Trustees) Limited is taken to have an interest in the same 480,000,000 ordinary shares held by Aceland Holdings Ltd. on trust for The Yip Unit Trust. These shares therefore duplicate each other.
- 5. Ms. Tang Yuk Lan is the spouse of Dr. Yip Man Fan. Under Part XV of the SFO, each of Dr. Yip Man Fan and Ms. Tang Yuk Lan is taken to have an interest in the shares held by each other. These shares therefore duplicate each other.

Corporate governance

The Company has complied with all the provisions set out in the Code on Corporate Governance Practices (the "Code") contained in Appendix 14 of the Listing Rules throughout the interim period except for Provision A.2.1 of the Code.

Provision A.2.1 of the Code requires the management of the Board and the day-to-day management of business be performed by separate individuals. There was no office of chief executive officer in the Group for the period under review. Following the complexity of the business and the expansion of the Group, Mr. Kwok Kam Hoi, the Deputy Chairman and Executive Director, was redesignated as the Chief Executive of the Company on 20 January 2010. The Chairman's role is clearly separated from day-to-day management and power and authority can be well balanced.

Remuneration committee

During the interim period, the Remuneration Committee reviewed the remuneration package of the Directors and the senior management of the Group and proposed bonus policy to Executive Directors to reflect their contributions to the Group and to link their remuneration to the Group's performance.

Social responsibility

Corporate social responsibility is regarded as an important part of sustainable development for corporations. The Group strives to embody the spirit of corporate citizenship by contributing to the community. In addition to our regular voluntary work, in 2009, the Group joined the Flag Day Appeal organized by the Hong Kong Federation of Youth Groups, benefiting more youths with learning difficulties and their families. In addition, we have become a "Heart-to-Heart Company" by supporting the Heart-to-Heart School Volunteer Corps of Hong Kong Federation of Youth Group, which sponsors schools to organise various youth volunteering services and provides more opportunities for young people to contribute to the society.

Model code of listing rules

The Company has adopted the Model Code set out in Appendix 10 to the Listing Rules. The Company has made specific enquiry with each Director and was confirmed that all Directors have complied with the required standard set out in the Model Code during the six months ended 31 December 2009.

Purchase, sale or redemption of securities

During the six months ended 31 December 2009, neither the Company nor any of its subsidiaries purchased, sold or redeemed any shares in the Company.

Audit committee

During this interim period, the Audit Committee reviewed the internal audit work summary and findings and endorsed the internal audit report. The Audit Committee also reviewed the interim review plan from the external auditors and approved their proposed services fees for the financial year ending 30 June 2010.

The Audit Committee has reviewed with the management the accounting principles and practices adopted by the Group and discussed auditing, internal controls and financial reporting matters including a review of the unaudited condensed consolidated financial statements for the six months ended 31 December 2009 ("Interim Financial Statements"), in conjunction with the external auditors of the Company. The Audit Committee is satisfied that the Interim Financial Statements have been prepared in accordance with applicable accounting standards and fairly present the Group's financial position and results for the six months ended 31 December 2009.

By order of the Board **Kwok Kam Hoi** Deputy Chairman and Chief Executive

Hong Kong, 18 March 2010
